

	Calendar Year 2018									
	COLORADO									
	BO No.	Lead Federal Agency	County	Project Name	Project Proponent(s) and/or Beneficiary(ies)	Date of BO	Depletion Category (existing, new, or combination water-related activity; federal or non-federal)	Start Year if new water-related activity creating depletions (estimated)	Water Sources and Uses	Offsetting Measure (e.g., SPWRAP or MOA)
	2019-065	Reclamation	Weld and Morgan	Walker Recharge Reservoir Project	Central Colorado Water Conservancy District	3/2/2019	existing, non-federal, annual depletion		Source: Native South Platte River and groundwater wells. Use: Annual recharge of 30,000 af is considered an continued historic existing depletion used for groundwater recharge.	SPWRAP
	2019-076	FHWA-CFLHD	Logan, Weld	OMAD 300 (64) Minute Man Missile Road Re-gravelling Project	US Air Force, FHWA-CFLHD, Logan and Weld counties	3/20/2019	one-time new, federal	2019	Source: water would be obtained from existing wells in Logan and Weld counties, within the South Platte River basin. Use: Construction was associated road- mixing, material use, dust abatement amount to new depletions up to 7 af.	FWS-Colorado-SPWRAP MOA; FWS-CFLHD MOA
	2019-094	FAA	Denver	Southwest Airlines Maintenance Hangar Project	Southwest Airlines	3/29/2019	existing, non-federal, one-time depletion	2019	Source: South Platte River. Use: New Depletions are associated with 1.26 af supplied by Denver Water for construction related activities.	SPWRAP
	2019-109	USACE	Douglas	Walker Reservoir Project	Cherry Creek Project Water Authority	6/25/2019	new and existing, non-federal, annual depletion	2019	Source: The source of the water is the South Platte River groundwater. Use: Use associated with modifying the existing mining reservoir resulting in a combination of new and existing depletions totaling 435 af/yr.	SPWRAP
	2019-195	EPA	Larimer	Boxelder Sanitation District WWTP Upgrade Project	Boxelder Sanitation District	7/5/2019	existing, non-federal, annual depletion	2019	Source: The source of the water is the South Platte River Pudre River basin (32.6%) and Colorado-BigThompson transmountain sources (67.4%). Use: Use associated with upgrades to the existing WWTP resulting in reduction but continuation (from 29.7 af/yr to 17.1 af/yr) of existing historic depletions totaling af/yr.	SPWRAP
	2019-210	FAA	Jefferson	Fixed Base Operator Development Project	Rocky Mountain Metropolitan Airport	7/25/2019	new, non-federal, one-time and annual depletion	2019	Source: The source of the water is the South Platte River. Use: Use associated with modifying, constructing, and operating the FBO facility and infrastructure resulting in new depletions totaling 0.53 af/yr for operation in addition to use of 9.05 af/yr for a period of 6 years (construction).	SPWRAP
	NEBRASKA									
	BO No.	Lead Federal Agency	County	Project Name	Project Proponent(s) and/or Beneficiary(ies)	Date of BO	Depletion category (existing or new water-related activity? federal or non-federal?)	Start Year if new water-related activity creating depletions (estimated)	Water sources and uses	Offsetting measure* (e.g., SPWRAP)
	2019-093	FHWA-CFLHD	Banner, Cheyenne, Kimball	OMAD Minute Man Missile Access Road Projects (OM-AD 300[64]	FHWA-CFLHD, Air Force	4/1/2019	New and Existing, Federal	2018	Source: South Platte River, outside 28/40 area. Use: One-time use of up to 5 af pumped from wells outside the 28/40 zone.	Nebraska New Depletions Plan
	WYOMING									
	BO No.	Lead Federal Agency	County	Project Name	Project Proponent(s) and/or Beneficiary(ies)	Date of BO	Depletion category (existing or new water-related activity? federal or non-federal?)	Start Year if new water-related activity creating depletions (estimated)	Water sources and uses	Offsetting measure* (e.g., SPWRAP)
	06E13000-2020-F-0014	BLM	Converse	Chesapeake Operating Oil and Gas Operations Permit 21587.0D	Chesapeake Oil	10/23/2019	Existing, non-federal, one-time use		Source:Private wells in the North Platte river basin, 172.5 acre-feet for oil and gas production	Wyoming's Depletion Plan

*BLUE indicates those depletions considered "federal"

	06E13000-2019-F-0168	FHA	Laramie	Minuteman Missile Access Road Improvements	FHWA-CFLHD, Air Force	3/18/2019	Existing, federal, one-time use	2019	North Platte, private well, 5 acre-feet associated with road improvements	Federal/Wyoming's depletion plan
	06E13000-2019-F-0346	BLM	Carbon	Rocky Mountain Power's 230kV Interconnectors Transmission Line Project	Rocky Mountain Power	7/31/2019	Existing, non-federal, one-time depletion	2019	Source:Private well near Hanna, WY in North Platte River Basin, 1.1 acre-feet for construction of power sub-stations	Wyoming's Depletion Plan
	06E13000-2019-F-0373	BLM	Fremont	Green Mountain #4 and Found Soldier Federal #1 Oil and Gas Wells Permit to Drill	Green Mountain #4 and Found Soldier Federal #1	8/21/2019	Existing, non-federal, annual depletion for two years		Source: Crooks Creek tributary to North Platte River Basin, 4.6 acre-feet/yr for two years for oil and gas exploration and drilling	Wyoming's Depletion Plan
	06E13000-2019-F-0396	BLM	Albany and Carbon	Last Mile 230kV Transmission Line Connection Project	Last Mile Power	8/30/2019	Existing, non-federal, one-time depletion		Source: The source of the water is Hojio Reservoir on the North Platte River basin. Use: Use associated with construction and operation of the power lines resulting in 5.2 af of depletions.	Wyoming's Depletion Plan

*BLUE indicates those depletions considered "federal"
